

Tr:Screen

Non-Invasive Prenatal Testing (NIPT)

Tr:Screen Non-Invasive Prenatal Testing (NIPT) is an accurate, early prenatal screen for Down Syndrome and other common chromosomal conditions. The Tr:Screen test can be done from 10 weeks gestational age onwards.

Visit the Next Biosciences Hub in Sandton to have your bloods taken.

No appointment necessary. Available:

- Monday, Wednesday, Thursday
7:30am – 16:00pm and;
 - Tuesday & Friday 7:00am – 15:30pm
- Remember to bring the test requisition form completed by your doctor.
